

# WELL-KLEAN® Pipe-Klean Concentrate

Well Rehabilitation & Pipe Cleaning Aid - Intermediate

Potable Water Systems – FOR OFFLINE USE ONLY – NOT a potable water additive. Upon completion of use, remove product and adequately flush the system until the water is in compliance with local, state and federal guidelines.

Application Assessment – Applications are normally site specific. An assessment should be performed by a qualified professional to determine the optimum concentrations, processes and procedures.

Product Amount – Functioning as an acid catalyst, corrosion inhibitor, dispersant, sequestrant and wetting agent to descale, apply to 10% volume of the acid being used. The treated acid solution is normally applied at 10-30% of the system water volume. Scale is dissolved in 4-6 hours. Iron based tuberculation is dissolved over 12-24 hours.

Application – See “Specifications” at [www.hctlc.com](http://www.hctlc.com).

Testing the Cleaning Solution – Do not rely on pH as an indicator. Grab a sample of the cleaner in each cleaning zone, insert scale or calcite. The reaction should be vigorous bubbling. If not, add additional chemistry.

This is not a stand-alone product for descaling. Bulk scale should be removed mechanically in the presence of a biocide. During descaling, a biocide should be used. After descaling, the surfaces should be soaked in a sodium bicarbonate solution to neutralize any entrained acid and to promote metal passivation (pickling in a sense).

PRIOR TO USE - SEE MSDS FOR HAZARD AND FIRST AID INFORMATION

**DANGER**  
**- KEEP OUT OF REACH OF CHILDREN -**

**Hazard statements (GHS-US):**

Causes severe skin burns and eye damage. Causes serious eye damage.

**Precautionary statements (GHS-US):**

Do not breathe fume, mist, vapors.

Wash hands thoroughly after handling.

Wear eye protection, face protection, protective clothing, protective gloves.

If swallowed: rinse mouth. Do NOT induce vomiting.

If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.

If inhaled: Remove person to fresh air and keep comfortable for breathing.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

Wash contaminated clothing before reuse.

Store locked up.

Dispose of contents/container in accordance with Local, State, and Federal regulations.
